

## Edwin and Anne Kibathi

Location: London, UK

Mission: Pastoral ministry and church planting

Due to the return of Covid restrictions we went back to holding our church services on Zoom in December. Following the new government advice, we hope to resume physical worship services on 6 February this year. However, our fellowship in Reading already started meeting again in-person in January and the members are slowly returning.

In the same month of February, the members will be given an opportunity to elect deacons and also various group leaders for the year 2022.

After the elections, training for those elected will be carried out towards the end of February.

The Reading Church have already done their elections and their training and induction was completed 29 and 30 January 2022 respectively.

The Luton Church have found a new place to hold their worship meetings. So from next month, they expect to relocate from the community hall they were using, to a church building owned by the Church of England. All the preparations needed including hire agreements are complete and they are hoping to start worshipping there on 6 February.

### Prayer points

- Pray that members of the congregation will be motivated by the Spirit of God to go back to in-person church services.
- Pray that the planned leaders elections and training will go on smoothly.
- Pray that the leaders will be strengthened by God as they serve during this difficult season.
- Pray that the Luton fellowship will settle down quickly and that they will be able to reach more people.
