

Gary and Mary Reid

Location: **Olkinyei, KENYA**

Mission: **Church planting and Scripture distribution**

November 2023

With our vehicles out of action, we could only but praise and thank our Beloved that we were able to get an ordinary car to take us into the Mission and to take us out again. The car was able to leave Olkinyei on both occasions with the rain coming behind, and therefore neither time did the vehicle get stuck. With much heavy rain predicted and falling heavily between these times of travelling, we could only stand in awe of our awesome God and bless Him for His grace and goodness towards us.

During the dry spell of weather, we were able to work at, and fix, a portion of the dirt road that is more than a little difficult to drive upon when the ground is saturated.

We were also able to fix the old Land Rover and get it up and going again – all the while having a seasonal flu.

We bless our LORD for the opportunity to teach after returning from Northern Ireland and are deeply grateful to our Father for His dear children within Olkinyei who preach, teach and reach out, and seek to bring Him glory within the church families and the wider community.

At present we are in the process of prayerfully seeking to obtain God's Word and have them distributed to each home in our local area. We have ordered both Maasai and Swahili Bibles, as there are also people living within Olkinyei who are from other tribes. This has been a hearts' desire of ours for many years, but we also desired that it would be the Maasai who would be leading this Bible distribution and praying for and with each family/home that they visited.

Prayer Points:

- Please pray with us for this planned outreach amongst the precious Maasai and the other tribes living within our local area that God's Word will go out and prosper and accomplish all that pleases Him.
- Please pray for all the travelling that we and the Maasai will be undertaking during these coming months, as there are heavy rains forecast, and the dirt roads become exceptionally difficult to travel on, and sometimes areas become impassable. May our LORD grant safety and the ability to move from place to place.
- Rejoice with us in the tender graciousness and goodness of our LORD in so many ways over this last month.
- Continue to remember the lives of the precious Maasai in your prayers and that our LORD's Holy Spirit will continue to work mightily within Maasailand and beyond.
- May our LORD go before in all things, may His will be done, and may He be glorified. Please pray that we will ever be obedient to His leading and that we will follow where He leads us and bring glory, honour and praise to His Name.
