

Encyclopedia of Bible Crafts for Pre-schoolers

www.group.com

Teaching Bible stories to pre-schoolers is so much fun – especially when you are never short of clever ideas that make lessons more memorable and fun. This resource is packed with more than 175 simple crafts that bring 75 of the main Bible stories to life for little hearts and minds.

Smartly organised to follow the order of Scripture, these “tested and approved” crafts (all completed in 4 steps or less) are easy to find and use – making it easy to have an impact on the smallest in our ministries.

Finding crafts that are simple enough for pre-schoolers to use in Parents and Toddlers, pre-school Sunday school or as part of a Holiday Bible Club can be difficult. We often have things that are too difficult for little fingers to make or that take a lot longer than we had planned to take for the activity. These crafts are well designed and thought out and have been tried on pre-schoolers to check that they work. This is a resource book that is good for any pre-school group to have in its library and can be used time and again with this age group to help reinforce the Bible stories being taught.
