

Csaba and Ilona Veres

Location: **Cluj, ROMANIA**

Mission: **Outreach ministry and children's ministry and teaching**

We are thankful for the faithfulness of God to us and praise him whose 'love reaches to the heavens and faithfulness to the skies' Psalm 36:5.

We are grateful for an encouraging time of home assignment and look forward to returning to Romania in early March.

As we return, to continue work with the Diakonia children's programmes, one of our first tasks will be to prepare Easter Bible teaching resources for each group in the Cluj and Salaj County. In early April we plan to visit each location delivering the teaching material and have a chance to reconnect with the staff and volunteers, church leaders and pastors.

The Easter Bible week is a great opportunity for evangelism in each of the groups, for Bible teaching, scripture memory, and interactive activities and we join the staff in praying that many children will understand the good news of salvation and that families will trust the Saviour.

We will continue to work on the 'LINK-IN' programme, calling, training and equipping volunteers to serve in Diakonia's children's ministries. As things open up after the many Covid-19 restrictions, we hope that we will be able to travel to advance further in some local discussion meetings and training events.

We give thanks that God is faithful and answers our prayers.

Prayer points

- Please join us to pray for the preparation for the Easter Bible weeks, for God's wisdom for the details of writing the Bible lessons, worksheets, and sourcing other teaching activities.
- Pray for the LINK-IN programme, that God would send local volunteers with a passion for serving and a heart for children to hear the gospel.
- Pray for the LINK-IN team, as we continue to develop material for training, resourcing, and supervision of volunteers.
- As the Omicron variant of coronavirus continued to reach over 10,000 cases per day, in late February, pray for continued protection, good health and stamina for the Diakonia children's ministry staff and the nursing team as they continue to serve in their communities.
