

*Bubbles*

[www.scriptureunion.org.uk/38352.id](http://www.scriptureunion.org.uk/38352.id)

Children aged 5 and under are bubbling with life; everything is new, exciting and just waiting to be discovered. They are in the busiest time of their lives when they will learn more than at any other time and, crucially, when their brains establish learning pathways.

They are receptive to God, to hearing him in ways that many of us have lost as we have grown up and to having the sort of faith that Jesus wants us all to have.

### Why choose Bubbles?

- Because God wants to introduce young children to himself through Jesus. He valued children (Mark 10:14) and made them the role model for the kingdom of God (Matthew 18:5), and God delights in their praises (Psalm 8:2). We have the privilege and responsibility of nurturing their understanding of God and their spiritual lives and *Bubbles* gives us exactly the right tools to help us do it.
- Because children grow and develop more in their first five years than at any other time. *Bubbles* uses methods based on play and story. It applies what we know about child and faith development and the ways young children learn. It enables children to connect with the Bible and to develop a personal relationship with God.
- Because, in Jesus, 5s and under too can be light for the whole world.

This resource is the first part of a teaching curriculum for Sunday schools that covers from age 3 to teenagers. *Bubbles* is for ages 3-5 years so great for a pre-school Sunday school class or section in a children's church. Scripture Union has a great reputation for producing good quality resources and this is no different. It is used by a wide variety of congregations both in Ireland and the UK with a great amount of success and enthusiasm.

There are other resources in the Bubbles category.

- ***The Big Bible storybook***  
*The Big Bible Storybook* features 188 Bible stories for very young children and adults to enjoy together. It is ideal for use at home or with your *Bubbles* group.

Other Light resources include:

- Splash
