

Edwin and Anne Kibathi

Location: **London, UK**

Mission: **Pastoral ministry and church planting**

The following are some of the events that we expect to happen in the next month or so.

First, we thank God for enabling us to continue being in touch with the members during the lockdown. Our children Sam and Joy have been a great help to us in the use of this modern technology. We have been able to minister to the church members via Facebook and zoom.

The youth and the children have been interacting also via zoom under the guidance of their teachers and parents.

The mens fellowship and ladies fellowship have also been interacting and supporting each other through the same.

The first week of next month in our church calendar is the Woman's Guild week. On the 1st of June 2020 is the beginning of the Guild week and the Director of the Women's Ministry Rev Elizabeth Kimani will officially launch the week for our ladies via zoom from Nairobi at 7.30pm. This will be followed by other activities the whole week which will be on zoom. On Sunday the 7th of June 2020, the former Nairobi regional Guild organiser will give the sermon via zoom from Dubai where the lockdown caught up with her while visiting her daughter.

GLOBAL DISCIPLES
Go Deep Go Wide

JUNE 2020

Most of the activities which we had planned for summer are still on hold as we wait for the government advice on the way forward as regards to the lockdown.

Sadly, the Kenyan community in the UK has so far lost 8 persons due to the Covid-19 virus. Though none of them are from our church, they are all related to some and well known within the community. Meetings to support the bereaved families have been going on through zoom. However, it has been a painful experience for those back home in Kenya who never had a chance to attend their relatives' burials leave alone being with them during the last moments.

Prayer Points

- Thank God for the technology that has enabled us to keep connected.
- Pray for the women ministry and that the forthcoming events will be successful.
- For the families who have lost their loved ones through the Covid 19 virus. That God will ease the pain most are going through.
- For many families who are not sure of their fate regarding their jobs after the lockdown.
